

October 30, 2022 at 8:00 AM - November 2, 2022 at 5:00 PM

Savannah EMC RN

**Mabel Miguel, Ph.D., Distinguished Scholar,
Invited to Headline 2022 EMC**

The AMWA Executive Management Conference (EMC) delivers the best opportunities for executive peer-to-peer exchange and networking in the water sector. Taking place at The DeSoto in scenic Savannah, Ga., from October 30 to November 2022, the 2022 EMC promises to provide a transformative learning experience. It is no wonder that participants consistently give EMC high marks. According to a 2021 EMC attendee, “The conference was fantastic! This was my first time attending, and it was the best conference I've attended at an executive level. It is now my favorite conference. I will now be attending each year going forward.”

Utility managers should plan to join colleagues from across the country and register today!

Leadership and Organizational Development

Mabel Miguel

On Monday, October 31, the EMC kickoffs with a workshop with

invited keynote speaker Mabel Miguel, Ph.D., for two power-packed days of dynamic programming. For over 25 years, Dr. Miguel, a noted global educator, has been developing and presenting leadership courses to the public and private sectors. Dr. Miguel is a renowned professor at the University of North Carolina’s Kenan-Flagler Business School and is a highly rated faculty member for the Water and Wastewater Leadership Center. She will provide attendees with proven approaches to management, and participants will leave with specific actions to address organizational development at their utilities.

Additional Topics and Activities

Organizational development is just one of the many top-of-mind issues that presenters will tackle on the program, which will also include:

- Best practices for addressing supply chain issues and mitigating rising materials costs;
- Strategies for securing utility cybersecurity networks; and
- Perspectives on affordability and environmental justice.

In addition to interactive sessions and lively peer discussion in the formal program,

attendees will have the benefit of:

- Networking with colleagues at breaks, lunches, and receptions;
- Honoring exceptional utility management and individual contributions to the water industry at AMWA's annual awards program; and
- Participating in a site visit of the facilities at Beaufort-Jasper Water and Sewer Authority.

Register today to attend the AMWA 2022 EMC and engage with us on LinkedIn (<https://www.linkedin.com/company/association-of-metropolitan-water-agencies/>) and Twitter (https://twitter.com/AMWA_water) using #2022EMC.
