Mark your calendar and plan to attend this unique opportunity for water utility CEOs and general managers to hear from veteran political analyst Charlie Cook, editor and publisher of the (<https://cookpolitical.com/>)Cook Political Report (<https://cookpolitical.com/>) and NBC News analyst.

Members will also develop insights on legislative plans from key Congressional committee chairs and get an inside view of the Biden Administration's priorities and timetables.

The AMWA Board of Directors will meet virtually on the afternoon of March 15.
