AMWA joins campaign calling for infrastructure bill by July 4

February 22, 2021 at 5:00 AM

Last week AMWA was one of more than 300 organizations to add its name to the U.S. Chamber of Commerce's "Build by the Fourth of July" campaign. As the name implies, the initiative is asking lawmakers to approve a comprehensive package of infrastructure legislation by July 4 of this year.

A letter (<https://www.amwa.net/letter/build-fourth-july-campaign-letter-congress>) to Congress sent by AMWA and other participating organizations on February 17 said a suitable infrastructure bill should repair and update crumbling infrastructure, stimulate the economy, address climate change, and promote fiscally and environmentally responsible policies, among other objectives.

More information about the campaign can be found online (<https://www.uschamber.com/lets-rebuild-america>).
