# AMWA needs your input for 2021 fall conference topics

June 7, 2021 at 5:00 AM

AMWA is looking forward to the in-person 2021 Executive Management Conference (<https://www.amwa.net/2021EMC>) (EMC) in Denver, Colo., from October 3 to 6. The EMC is designed specifically to meet the professional development needs of water utility executives, so the association really wants to hear from you on top-of-mind issues.

AMWA sent out emails to members asking for input on EMC topics and presentations, because the association values your opinion. Your insight will help to shape the conference program and help make the event a success. Don't miss your opportunity to contribute to the EMC program by sharing your perspective and completing the short, 10-minute survey.

Please contact Antoinette Barber (<mailto:barber@amwa.net>) if you need a survey link.
