# AMWA's award applications are due next week

June 7, 2021 at 5:00 AM

Time is running out for all eligible utilities to submit applications for AMWA's 2021 Gold, Platinum, and Sustainability Awards. The awards provide an excellent way to highlight utility management expertise and receive recognition from the association. AMWA will present all winning utilities with awards at its in-person 2021 Executive Management Conference (<https://www.amwa.net/2021EMC>) in Denver from October 3 to 6. AMWA's website (<https://www.amwa.net/awards/overview>) provides examples of winning applications for each of the award categories.

Don't miss your opportunity to showcase your work. Submit (<mailto:barber@amwa.net>) your applications for one of the three utility management award programs before the June 18 deadline.
