## EPA holding listening session on Greenhouse Gas Reduction Fund

May 22, 2023 at 5:30 AM

EPA is inviting AMWA members to a listening session on EPA's [Greenhouse Gas Reduction Fund](https://www.epa.gov/greenhouse-gas-reduction-fund) (GGRF) on Wednesday, May 24 from 1:00 to 2:00 p.m. ET. The GGRF will deliver \$27 billion in competitive grants to finance projects that will decrease greenhouse gasses and pollution.

On April 19, [EPA released](https://www.epa.gov/newsreleases/epa-releases-framework-implementation-greenhouse-gas-reduction-fund-part-president) (<https://www.epa.gov/newsreleases/epa-releases-framework-implementation-greenhouse-gas-reduction-fund-part-president>) an [implementation framework](https://www.epa.gov/system/files/documents/2023-04/GGRF%20Implementation%20Framework_730am.pdf) ([https://www.epa.gov/system/files/documents/2023-04/GGRF%20Implementation%20Framework\\_730am.pdf](https://www.epa.gov/system/files/documents/2023-04/GGRF%20Implementation%20Framework_730am.pdf)) for the GGRF. This new framework builds on the initial guidance EPA released earlier this year and outlines expected parameters and application components for the GGRF grant competitions. The framework provides guidance on eligible entities to receive grant funding, the types of projects they can fund, relevant reporting requirements, and more.

During the session, Nicole Steele, Senior Advisor in EPA's GGRF program, will provide an overview of the GGRF Implementation Framework, and attendees will

have an opportunity to provide feedback. For competition reasons, EPA will not be able to answer specific questions during the session, but their teams are eager to hear comments and feedback about how to maximize the impact of the program.

AMWA members who are interested should email [Jessica Evans](mailto:evans@amwa.net) (<mailto:evans@amwa.net>) for the invitation.
