

Job Title: Director of Water Transmission and Distribution

Employment Type: Full Time

Location: Greenville, SC, US

Apply URL: <https://greenvillewater.applicantpro.com/jobs/1057168.html>

Job Description:

Greenville Water, a progressive regional water utility covering over 1,100 square miles and serving over 500,000 residents in the dynamic Upstate of South Carolina, is searching for a new Director of Water Transmission and Distribution. Greenville Water is the largest water agency in South Carolina and has 233 employees.

Greenville, South Carolina has been recognized for its strong economy, high quality of life and boasts an award winning downtown. Greenville is located in the foothills of the Blue Ridge Mountains and is just a 4 hour drive from the beach. It is located halfway between Charlotte, NC and Atlanta, GA.

Director of Water Transmission and Distribution

Reports To: Chief Operations Officer

JOB SUMMARY

The Director of Water Transmission and Distribution supervises approximately 52 staff members; and plans, directs and manages the Water Transmission and Distribution Department, including large diameter water transmission, water distribution system repair and rehabilitation, construction, tapping and meter set activities, and water distribution system preventative maintenance and regulatory activities. Plans and coordinates normal maintenance, preventative maintenance and/or repairs to the water transmission and distribution system. Coordinates department projects with other departments, utilities and agencies as required. Inspects work in progress and completed work to ensure compliance with company policies and procedures, engineering plans and specifications, schedules, various regulations and standards of quality and safety; provides problem resolution as necessary. Responsible to develop and maintain the department budget.

MINIMUM QUALIFICATIONS:

A Bachelor's Degree in engineering technology, construction, business or other relevant field, supplemented by ten (10) years of progressively responsible experience in the construction and/or maintenance of water systems, is required; or possession of any equivalent combination of education, training, and experience which provides the requisite knowledge, skills, and abilities for this job. Must possess and maintain valid certifications in the following: CPR, First Aid, and a State of South Carolina Water Distribution Class A License.
